Technical Skills

- Java
- JavaScript
- React.js
- Vue.js
- HTML
- CSS
- MySQL
- C++
- Git
- Github

PROJECTS

Bible

Autumn 2023

- <https://github.com/Daniel160407/Bible>
- It's a javaFX GUI based app that can be used in churches to display bible verses on projector. While working with this project, I learnt how to use javaFX GUI for java applications, also request structures and how to use Json.
- Java, JavaFX, Communication.

ChatRoom

Autumn 2023

- <https://github.com/Daniel160407/ChatRoom>
- It's also JavaFX based app that contains server and client parts. Clients can connect to server and communicate with other users. While working, I learnt how to use sockets and how to work with Threads.
- Java, JavaFX, Networking.

WordsTeacher

Winter 2024

- <https://github.com/Daniel160407/WordsTeacher>
- It's web app that teach you any kind of language words using a specific method. While developing, I learnt how connect front-end and back-end to each-other using requests and responses, how to work with MySQL database.
- Java, JavaScript, html, css, Jquery, Communication, MySQL.

Candy-Shop

Winter 2024

- <https://github.com/Daniel160407/Candy-Shop>
- It's also web app, where users can buy candies and shop owner can add more one. I learnt how to work with Jpa hibernate and Flyway database manager.
- Java, JavaScript, html, css, Jquery, Commynication, MySQL, Flyway, Jpa, Hibernate.

SKILLS

- I can focus on one project and make it as good as it is possible.
- I can work for hours in a day.
- Communication with other developers.
- Language knowledge: Georgian, English, Russian.

EDUCATION

Mziuri Programming School
